EDUCATION

***Master of Science in Computer Science**,* The University of Texas at Dallas, USA   **May 2021**
> **Related Coursework:** Data Structures and Algorithm Analysis, Discrete Structures, Operating System Concepts, Computer Architecture

Bachelor of Technology, Indian Maritime University, Visakhapatnam, India. ***CGPA 8.82/10***   **June 2019**

SKILLSET

Backend & Database C, Java, JEE, JSP, Servlets, MySQL, MongoDB
Web Technologies   JavaScript, HTML5, CSS3, Bootstrap, Angular.js, React.js, Express.js, Node.js
Servers/OS/Tools   Tomcat, Ubuntu, Git, Eclipse, Android Studio, VS Code, Advanced REST Client, Putty

PERSONAL PROJECTS   Fall 2019

Task Manager Enterprise -
- Web Application in which user can signup/login and create/modify their own to-do list.
- The user can share the to-do list amongst a group or with co-workers and can also create a private chat room for the group to discuss the planned tasks. Finished tasks can be archived or dumped.
- Implementing Audio/ Video Conferencing feature.

Technologies/Tools: Angular.js, Express.js, Node.js, MongoDB, JavaScript, Bootstrap, HTML, CSS, VS Code, Advanced REST Client

Tweet-it -
- Web Application developed using JavaScript Single Page Application Framework Angular.js.
- Users can signup/login and interact with other users through messages in a public environment.

Technologies/Tools: Angular.js, Express.js, Node.js, MongoDB, JavaScript, Bootstrap, HTML, CSS, VS Code, Advanced REST Client

Portfolio Website on React -
- React based portfolio website using create-react-app and React Router v4.
- Sub-sections include *Blog, Introduction, Projects, Resume,* & *Contact details.*

Technologies/Tools: React.js, Node.js, JavaScript, Bootstrap, HTML, CSS, VS Code

Student Catalog -
- Web Application to store student's information- *ID, First and Last Name, e-Mail, Mobile, Courses & GPA.*
- *Admin* can *Access, Modify and Remove* a student's record. The database is implemented in MySQL.
- Each record can be accessed using *ID* which is unique to each student. Admin can retrieve all records sorted *GPA* wise.
- *Login* authentication for Admin. Also, building Android application for *Student Catalog* using Android Studio.

Technologies/Tools: Java, JSP, Servlets, MySQL, Bootstrap, Tomcat, Eclipse, Android Studio

ACADEMIC PROJECTS   Fall 2019

Unix Shell -
Coded a new Unix Shell '*dash'* in C incorporating features like *reading from a batch file, output redirection to a file, running parallel commands, and commands with multiple arguments.* It offers all the basic functionality like the Unix shell.

Lottery Scheduler in xv6 OS -
Implemented Lottery Scheduler in place of Round Robin Scheduler in xv6 OS; added new System Calls and Random Number Generator in kernel.

EXTRA-CURRICULAR ACTIVITIES

- **Member** of *ACM, Artificial Intelligence Society, UX Club,* and *Grads of CS* at UT Dallas, Fall 2019.
- **Co-Editor** at Learn Ship Design, a student initiative at Indian Maritime University, Visakhapatnam, 2015-2019.
- **Co-Founder** of Technical Magazine *'Navisieger'.* Link: *https://issuu.com/learnshipdesign/docs/final_magazine_2*
- **Organizing Team Coordinator** at college annual festival *'Shrestha'* and TEDx IMU, Visakhapatnam.
